Seating Manufacturer

## Specifications: Alex Chair

### Description

The attractive design of the Alex chair and matching barstool makes this line a popular choice for dining and hotel rooms. The high back on the chair has four slats that curve upwards, providing excellent back support. The padded, upholstered seat is very comfortable. A choice of many different fabrics is offered or customer supplied fabric can be used.

The Alex chair is non-stacking.

### Fabric for upholstered seats

COM (Customer's Own Material) fabric required:  
.35 yd (.33 m)

*Note:* This is the estimated amount based on 54" (137 cm) wide material. The actual amount required may vary depending on special pattern matching and the width of the material.

Stock fabric: Black vinyl is available as a stock fabric.

Cushion Foam: High density 1.5" (3.8 cm) thick on seat

### Wood

*Species:* 100% Solid European Beech Hardwood

### Construction

*Joints:* Mortise and tenon. Glued with high solids glue and reinforced with 18 gauge nails, corner blocks and low root woodscrews.

### Stain Colors

A wide range of standard stain colors is available as well as custom color matching. (A surcharge will apply to custom colors.)

### 9-Step Finishing Process

1. The bare wood of the assembled chair is thoroughly sanded using 120 grit paper.
2. One coat of stain is sprayed onto the entire chair.
3. The stain is handwiped to ensure an even color and maximum penetration into the wood.
4. The chair is inspected and any necessary adjustments made.
5. One coat of a catalyzed sealer is sprayed onto all wood parts to completely seal the wood.

6. Once dry, the sealer is sanded using 320 grit paper.
7. A final sanding is done using Scotch Brite pads to remove any sanding marks.
8. A catalyzed lacquer is sprayed on. This lacquer is very durable and will stand up in a commercial environment.
9. A final inspection is performed prior to packaging to ensure a high level of quality control.

*Note:* Specifications subject to change without notice.
