Carton Weight		
with 1 ottoman	20 lbs	9 kg

Wood

Species: 100% European Beech Hardwood (uniform layers inside and out)

Legs and arms: Made of 15 plys to a finished thickness of 1”.

Seat and back supports: Made of 13 plys with a finished thickness of 0.8”.

Leg rail: Made of solid beech with a thickness of 0.8”.

Chair back rails: Made of 7 plys to a finished thickness of 0.5”.

Construction

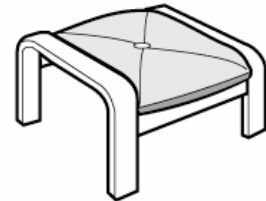

The chair is assembled with dowels that are connected with metal to metal hardware and reinforced with high solids glue.

Finish

Current standard wood frame stain color is Natural.

6-Step Wood Finishing Process

1. The bare wood components of the chair are thoroughly sanded using 120 grit paper.
2. One coat of stain is sprayed onto all sides of the wood components.
3. The chair components are inspected and any necessary color adjustments made.
4. One coat of a nitrocellulose sealer is sprayed onto all wood parts to completely seal the wood.
5. Once dry, the sealer is sanded using 320 grit paper.
6. A nitrocellulose lacquer is sprayed on.

Note: Specifications are subject to change without notice.
