Collection Chair Information Guide

Pneumatic Seat Height Adjustment

- Allows quick and easy adjustment
- Regulates height of the chair relative to the floor

Tilt Tension

- Controls rate and ease with which the chair reclines for different weights and strengths of users.

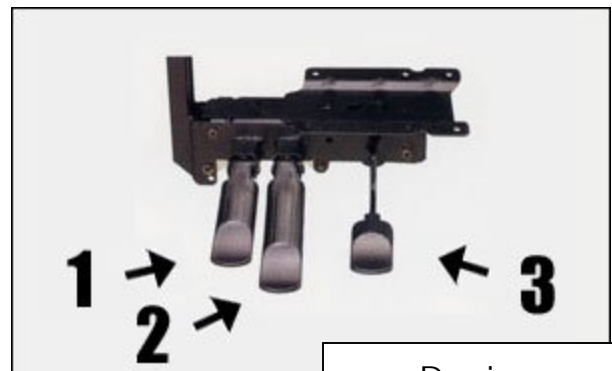

Dual Function

- Seat and back angle adjustment with independent back angle and back height adjustment

#1. Back Tilt – pull lever up to leave back tilt moving freely and push lever down to lock any tilt into place.

#2. Seat Tilt – Pull lever up to tilt freely and push lever down to lock any tilt into place.

#3. Seat Height – apply pressure to seat and lift lever to decrease seat height and remove pressure and lift lever to increase seat height
