

Cummins Onan Inverter Generators

Cummins Onan generators have powered towables since they first hit the road. Known for their quiet power, Cummins Onan generators can be found aboard eight out of ten RV's that have installed generators. Discover for yourself the quality, selection, and service that have made Cummins Onan the first choice for convenient, reliable portable power.

“There’s nothing not to like about it. The freedom of being able to pull up, stop, power up anywhere you want... Whatever you want it to be, and to see the country that way – it’s awesome.”

- Actor Matthew McConaughey
on *Live with Regis and Kelly*

P1700i PORTABLE INVERTER

Quiet and lightweight, the 43 pound P1700i is an easy to handle power option custom made for life on the road. Its 1400 watts of inverted power make it perfect for most RV microwaves, televisions and other simple luxuries.

- 4 Hour Continuous Operating Time (At rated load)
- Manual Start
- 1.1 Gallon Fuel Tank
- 120V GFCI Protected Duplex
- 2 Year Limited Warranty

P3200ie PORTABLE INVERTER

A significant step up, the P3200ie easily handles a 13,500 btu air conditioner. Electric start, 2800 watts and an integrated wheel system make the P3200ie as easy to use as it is powerful.

- 6.5 Hour Continuous Operating Time (At rated load)
- Electric Start (Recoil Backup)
- Large 2.9 Gallon Fuel Tank
- 120V GFCI Protected Duplex
- 4 Wheels Standard
- 2 Year Limited Warranty

P4300ie PORTABLE INVERTER

Our biggest inverter model, the P4300ie is powerful enough to run one 15,000 btu air conditioner with power to spare. Equipped with electric start and 3800 watts of power, the P4300ie is a serious generator.

- 5.3 Hour Continuous Operating Time (At rated load)
- Electric Start (Recoil Backup)
- Large 3.4 Gallon Fuel Tank
- 120V GFCI Protected Duplex
- 4 Wheels Standard
- 2 Year Limited Warranty

INVERTER LOAD CHART

To select the generator that best meets your needs, add the combined wattage of all appliances and equipment you might use at one time, then choose a Cummins Onan inverter with an electrical output higher than that number.

APPLIANCES AND EQUIPMENT	AVERAGE REQUIRED WATTAGE	APPROX. WATTS
Air Conditioner	1,400-2,400	9-20
Air Compressor (1hp)	1,500-2,500	9-20
Battery Charger	up to 3,000	6-28
Blender	600	5.5
Broiler	1,350	12
Coffeepot	550-1,000	4-8
Compact Disc Player & Speaker	50-100	0.5-0.9
Computer	50-100	0.5-0.9
Converter	500-1,000	4-8
