

Remanufactured Fitness Equipment

Get Commercial Quality Fitness Equipment – up to 50% off!

At FitnessEquipmentandMore.com you will find awesome deals on remanufactured exercise bikes, ellipticals, treadmills, and steppers! Here are some things you should know about remanufactured equipment:

- **Remanufactured equipment CANNOT BE CANCELLED OR RETURNED after an order is placed**

- Machines are built to order - a process that usually takes about 2-4 weeks (some items can take up to 6 weeks)

- During the remanufacturing process, certified technicians strip and rebuild the machine, replacing any parts which do not meet strict production standards

- Machines are then restored cosmetically, receiving new overlays, paint, and stickers as needed

- Following the remanufacturing process, machines are individually tested before they are released for shipping

- Machines are **delivered assembled** - no assembly required!

- All units have a 6 months parts & labor warranty - any issue that occurs within 6 months of receiving the unit will be addressed
