

Company profile - Dutailier

Dutailier know-how

Dutailier manufactures high quality furniture since 1976. In over 15 countries on 3 continents, the Dutailier name is synonymous with quality, innovation and products designed to meet consumers' specific needs. Leader of its sector, Dutailier has always been in search of innovation and knows perfectly well how to integrate it in its products. As a result, Dutailier benefits from an excellent reputation due to the state-of-the-art technology, quality and high durability of its products, which are offered in a multitude of personalized options like the 20 finishes and two tone option.

In 2003, E.G. Furniture joined the Dutailier family allowing a wider range of products: wood and upholstered gliders as well as solid and durable furniture that evolve with your child.

Dutailier, the art of customised furniture ... to your liking

Dutailier is proud to offer the best quality of furniture, made by well-skilled craftsmen in our Canadian facilities thus allowing a complete personalisation of your furniture. With our numerous choices of finishes and fabrics, we are offering our consumers the style they are looking for in their child's bedroom and the possibility to add their personal touch.

Many reasons to choose Dutailier glider rockers

- Long lasting gliding movement tested for many years (more than 6 million cycles) and an unrivalled smoothness.
- High quality construction and finishing made by craftsmen.
- Seat and cushion made with perfect compression and high density foam for an optimal comfort.
- The quality control process guarantees the best possible product.
- The multiposition, reclining and swivel options enhance the experience of sitting in a glider rocker.

Many reasons to choose Dutailier furniture

- All beds, cribs and furniture meet or exceed Canadian and American standards in terms of security (all cribs are JPMA certified).
- We use non toxic varnish and stain.
- All exposed surfaces are hand sanded for a perfect finishing touch.
- The furniture is made of maple or birch solid wood, except the sides and some assembly components for which we use plated birch wood. Since plated wood is not a living material, it will not warp or crack over the years.
- All our drawers are assembled with French dovetails and the metal glide mechanism has a lifetime warranty.
- Our furniture is designed to be part of the family during many years, from the baby's room to the teenager's room.
- A choice of more than 20 finishes and our 2 tone option are offered on almost all furniture.
