DIAMOND®

**DC-16W
 #5 Grade 60
 Rebar Cutter**

Removable Side Handle

"Unique features make this tool the very best"

Top-Quality Manufacturing, Long-Life Cutting Blocks, D-Handle Design with Side Handle, Precision-Balanced Armature, Double-Insulated Electrical Motor and Locking Trigger Switch.

This portable heavy-duty rebar cutter will safely, efficiently, and cleanly cut rebar up to #5 (5/8") diameter grade 60 rebar. This self-contained electric/hydraulic unit will also cut other items like chain, bolts and rod but is specifically designed for rebar. The DC-16W cutter is designed for effortless vertical and horizontal cutting applications. **DIAMOND** originated this concept in 1972; continuous development has led to higher output, lower weight, and even greater toughness and durability. The DC-16W is a cold-cutting shear unlike saws with abrasive blades and cutting torches. There are no sparks or flame and no trailing hoses to snare equipment or worker's feet. The DC-16W ships complete in a steel carrying case with hydraulic oil and a tool kit. Backed by our no-nonsense one (1) year warranty.
