The Original Portable Electric Rebar Cutter.

DIAMOND®

**DC-20WH
 #6 Grade 60
 Rebar Cutter**

MHG-20WH Optional Motor Guard Above

"Unique features make this tool the very best"

Electrical Cord Strain Relief, Long-Life Cutting Blocks, Extra Hardened Piston, Precision-Balanced Armature, Safety Pressure Relief Valve and Safety Cutting Guard.

This portable heavy-duty rebar cutter will safely, efficiently, and cleanly cut rebar up to #6 (3/4") diameter grade 60 rebar. This self-contained electric/hydraulic unit will also cut other items like chain, bolts and rod but is specifically designed for rebar. **DIAMOND** originated this concept in 1972; continuous development has led to higher output, lower weight, and even greater toughness and durability. The DC-20WH is a cold-cutting shear unlike saws with abrasive blades and cutting torches. There are no sparks or flame and no trailing hoses to snare equipment or worker's feet. Suggested for epoxy-coated rebar. Fastest, safest, and most economical way to cut rebar on the job. The DC-20WH ships complete in a steel carrying case with hydraulic oil and a tool kit. Backed up our no-nonsense one (1) year warranty.
