

Introducing Design-a-Board and Create-a-Wall.

Create a custom writing surface large enough to capture your big ideas.

Modular. Expandable. Customizable.

Claridge introduces two new products versatile enough to create the perfect writing and projection surface for any space.

Use our easy to install track system to connect panels together to create your custom writing surface perfectly suited for your space.

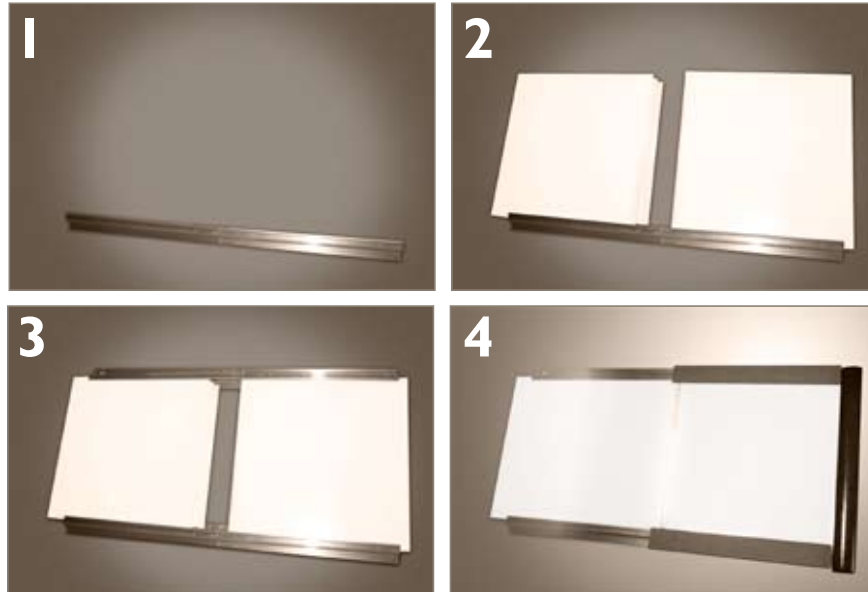

Low gloss surface designed for optimal projection.

Easy to transport, modular panels are designed for use in buildings with small elevator access.

Design-a-Board panels are horizontally oriented, available in 4'x4', 4'x5', 4'x 6' and 4'x8' sizes.

Create-a-Wall panels are vertically oriented, available in 6'x4' and 8'x4' sizes.

Design-a-Board and Create-a-Wall panels are easy to install.

- 1 Install base track.
- 2 Set panels in place with writable connectors between panels.
- 3 Install head track.
- 4 Install trim and end caps.
