

**DESCRIPTION:**

A semi-recessed, low-voltage fixture providing downward light through a poured glass diffuser available in crystal or satin white glass with a clear tip. Provides diffused illumination as well as a soft pleasant ceiling glow.

CONSTRUCTION:

Fully recessed housing equipped with thermal protection, magnetic transformer and junction box which houses the glass diffuser. Suitable for installation in all types of suspended modular ceilings and new construction. Mounting bars are provided with the new construction and IC housings. Remodel housings are also available. 277 / 12 Volt housings also available.

LIGHT SOURCE:

1 x 50 watts, low-voltage halogen, MR-16.

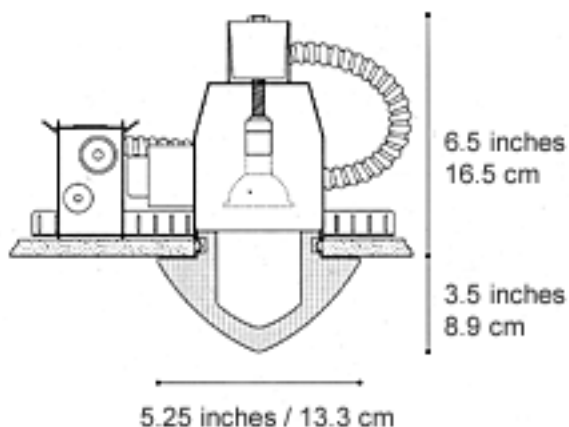

GLASS COLOR:

Crystal, Satin White.

NOTE:

U.L. listed/CSA approved for damp location. For U.L. compliance, use enclosed MR-16 lamp.
