

Designer
Ettore Cimini - 2005

Apparecchio di illuminazione da parete composto da una struttura frontale in alluminio pressofuso spazzolato che sostiene un vetro di forma quadrata opportunamente lavorato per diffondere la luce di una lampadina alogena tipo G9 fino a 75W, struttura a parete in acciaio.

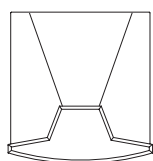

Wall light fitting consisting of a steel wall-bracket and a frontal frame of brushed die-cast aluminium, holding a square glass of optic quality carefully machined in order to diffuse with high efficiency the light of an halogen bulb G9 up to 75W: wall carrying structure in steel.

Wandleuchte mit einer sichtbaren Struktur aus gebuerstem Pressgussaluminium, die ein viereckiges Glas hält, das speziell für die Diffusion der Lichtstrahlen eines Halogenleuchtmittels Typ G9 von 75W bearbeitet wurde. Wandstruktur aus Stahl.
