ASSEMBLY SHEET FOR ARTICLE# 2600 FULL LENGTH DESK

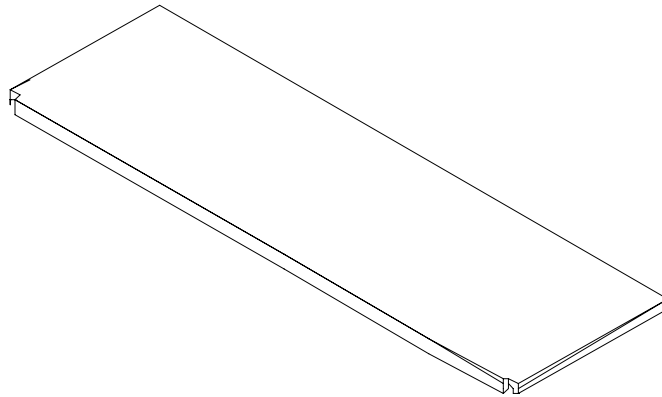

Parts List

Main components in box

- 1 x 22070 Full length desk top
- 1 x 22066 Keyboard panel
- 1 x 20032 Metal desk leg
- 1 x 20033 Foot for desk leg

Hardware parts bag

- 1 x 20008 Keyboard runner set (incl. 4 x keyboard L-brackets + 4 x 5mm screws)
- 2 x 20021 L-brackets
- 20 x 20016 19mm Wood screw

Tools needed: Phillips screwdriver, Flat head screwdriver, Rubber hammer

Important Assembly Notes

BEFORE assembling the full length desk and leg, please attach the keyboard tray first.

Flip the desk onto the surface so that the underside is facing up. Be sure to remove any objects that may scratch the surface.

The desk has pre-drilled holes. Please attach the 4 x L-brackets per below picture, with the “L”’s facing each other, aligning the holes in the metal L-brackets over the pre-drilled holes. Affix the L-brackets to the desk underside with the enclosed screws.

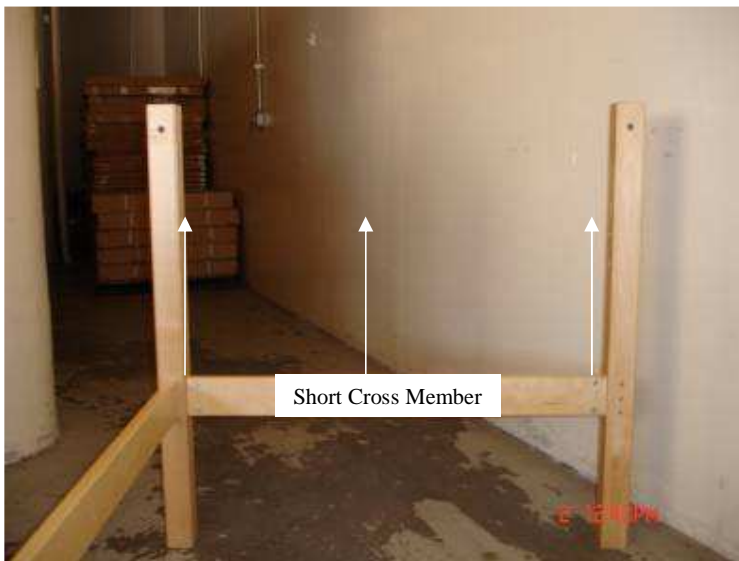

Attach the keyboard runner per below pictures with the small screws, making sure that the pull-out direction of the keyboard runner is facing the right way.

Finally - attach the keyboard tray, by placing it in the right direction (finished front facing forward) and making sure to use the pre-drilled holes on the underside of the keyboard tray.

When mounting the full length desk plate under the high loft bed, please make sure to raise the 2 short cross members to the highest position (notice the 3 holes – 2 height adjustments available in the highest position).

Once desk has been position on top of the 2 short cross members, please affix with enclosed L-brackets (inside of cross member and underside of desk).

Screw the metal desk leg into the insert in the middle underside of the desk. Adjust foot height for a firm and sturdy support of the desk.

Replacement Parts:

Replacement Parts, may be obtained from any of our dealers.
