Cleaning Instructions :

- Please be certain to turn off the power and allow fixtures or lamps to cool down completely prior to attempting any cleaning or maintenance.
- Polished metal surfaces can be dusted using a soft dry cloth, or carefully cleaned with a slightly damp cloth. Never rub the finish excessively. Never use any abrasives or chemical cleaners as they can damage the finish.
- Remove glass shades from fixtures before applying any liquid to them. The special glass on this item should be handled very carefully while cleaning to avoid removing the unique surface texture. This glass can be cleaned with plain water, or mild soapy water, then rinsed and let air dry.
