

Norma

Design | Steve Blackman,
Mario Barbaglia

The Norma wall lamps provide diffused light distribution through the glass, ideal in bathrooms, corridors and staircases
 Mounting | Wall mount only. Suitable for installation on normally inflammable surfaces. Equipped with adapter plate for mounting on 4" octagonal junction box. Can be mounted in horizontal or vertical position
 Materials | Diffuser in Pyrex glass, aluminum structure
 Finishes | Diffuser opal white, anodized and chromed structure

NORMA 128 HALOGEN

50" width x 1 1/2" height, 6 3/4" projection

4x75W, RSC, linear halogen 3 3/4"

Notes | Horizontal mounting only

Damp location (In horizontal position only)

NORMA 128 FLUORESCENT

(not illustrated)

50" width x 1 1/2" height, 7" projection

2x24W, TSH0, linear fluorescent, electronic, universal voltage ballast 120/277 Volt

Damp location (In horizontal position only)

NORMA 95 FLUORESCENT

37 1/2" width x 1 1/2" height, 6 3/4" projection

39W, TSH0, linear fluorescent, electronic, universal voltage ballast 120/277 Volt

Damp location (In horizontal position only)
