

The Stackable VCR Adapter Plate allows up to three Peerless Adjustable VCR Mounts to be "stacked" below a Peerless TV Mount. This application is ideal for multiple VCR applications or combining a VCR with a cable box, stereo receiver, or other component.

The adapter plate fits inside the upper VCR Mount and serves as a point of attachment for a second VCR Mount. All Mounting hardware is included.

A maximum of three VCR mounts may be "stacked" below any peerless TV Mount. **The combined weight of all components, including the TV, should not exceed the maximum load capacity of the TV Mount.**

Order the adapter plate model according to the size of the *upper VCR Mount* in the "stack". For example, if the upper VCR Mount is a Peerless model VPM40-J (black, standard size VCR Mount for Jumbo Mounts) adapter plate ACC145 should be ordered.

For questions concerning compatibility with Peerless TV Mounts contact Peerless Customer Service or your Peerless Sales Representative.

MODEL #	COLOR	SIZE OF UPPER VCR MOUNT	WEIGHT	SHIPPING WEIGHT
ACC140	black	small	1.5 lb (.7 kg)	3 lb (1.4 kg)
ACC140W	white	small	1.5 lb (.7 kg)	3 lb (1.4 kg)
ACC145	black	standard & large	2 lb (.9 kg)	4 lb (2 kg)
ACC145W	white	standard & large	2 lb (.9 kg)	4 lb (2 kg)

Shipping weight based on single unit shipment. Per unit shipping weight may be less for bulk orders.

**Architects Specifications:**

The VCR Adapter Plate shall be a Peerless model ACC\_\_\_\_. It shall be constructed of heavy gauge cold rolled steel and finished in scratch resistant Black or White Fused Epoxy. It shall be used to join any two Peerless adjustable VCR Mounts. Assembly and installation shall be done according to instructions provided by the manufacturer.
