

INSTALLATION AND SAFETY INSTRUCTIONS

IMPORTANT SAFETY INSTRUCTIONS

- Be sure the electricity to the system you are working on is turned off; either the fuse removed or the circuit breaker set at off.
- Use of other manufacturers components will void warranty, listing and create a potential safety hazard.
- If you are unclear as to how to proceed, contact a qualified electrician.
- You don't need special tools to install this fixture.
- Be sure to follow the steps in the order given.
- Under no circumstances should a fixture be hung on house electrical wires, nor should a swag type fixture be installed on a ceiling which contains a radiant type heating system.
- Read instructions carefully.
- Save these instructions.

BEFORE YOU BEGIN

Carefully remove the fixture from the carton and check that all parts are included, as shown in Figure 1, 2 & 3. Be careful not to misplace any of the screws or parts which are needed to install this fixture.

INSTALLATION

STEP 1:

Secure mounting bar (A) to outlet box using outlet box screws (not supplied). Thread nut (B) onto nipple (I). Thread nipple (I) into mounting bar (A), and tighten nut (B) to mounting bar (A). Thread screw collar (E) onto nipple (I).

STEP 2:

Thread fixture loop (J) onto fixture.

Fill In Item Number On Carton And
File This Sheet For Fixture Reference. ITEM# _____

INSTALLATION**HC-1052****STEP 1:**

Open one end of the chain (N) and attach to the fixture loop (J).

STEP 2:

Slide collar ring (K) and canopy (G) to fixture loop (J). Open and attach other end of chain (N) to screw collar (E). **BE SURE TO COMPLETELY CLOSE ALL LINKS OF CHAIN.**

STEP 3:

A. Take note of the color of the wire(s) on your fixture. Identify which group your fixture wire(s) falls into and connect the wires according to the directions below:

*Note: When parallel wire is used, the tracer wire is square shaped or ridged and less tracer wire is round in shape or smooth. (Seen best when viewed from wire end.) To separate wires, grasp the ends of each wire and pull apart.

B. Take your fixture wire(s) from group A and place evenly against the black wire from the outlet box. **DO NOT** twist wires together before using wire connectors.

C. Fit a wire connector (not supplied) over the wires and thread the connector clockwise until you feel a firm resistance.

GROUP A: CONNECT TO BLACK HOUSE WIRE

GROUP B: CONNECT TO WHITE HOUSE WIRE

BLACK

WHITE

*PARALLEL WIRE (ROUND & SMOOTH)

*PARALLEL WIRE (SQUARE & RIDGED)

D. Gently try to remove the wires from the connector. If you can remove the wires, carefully re-do steps B and C, as above and check again for a firm connection.

E. Connect the fixture wire from group B to the white wire from the outlet box in the same manner.

STEP 4:

GROUNDING INSTRUCTIONS: The green grounding screw (D) is to be inserted into the hole with two raised dimples provided on the mounting bar (A). Wrap the ground wire from the fixture (if supplied) and the ground wire from the outlet box (bare metal or green insulated wire) around the green grounding screw (D) on the mounting bar (A) if uninsulated wire is on the mounting bar (A), connect the ground wire from the fixture (if supplied) and the outlet box to it using a small wire connector (not supplied).

NEVER CONNECT GROUND WIRE TO BLACK OR WHITE POWER SUPPLY WIRES.

FINAL ASSEMBLY

Make sure no bare wires can be seen outside wire connectors.

STEP 1:

After wires are connected, tuck them carefully inside outlet box and then raise the canopy [G] against ceiling and secure by threading collar ring (K) to screw collar (E).

STEP 2:

Install lamps.

STEP 3:

Raise shade (L) to fixture so center pipe (P) protrudes from bottom. Secure by threading rubber washer and nut (R), bottom assembly (Q) and finial (O) to center pipe (P).

CLEANING

To clean, wipe fixture body with a soft cloth. Clean glass with a mild soap. Do not use abrasive materials such as scouring pads or powders, steel wool or abrasive paper.

ORDERING PARTS

Keep this sheet for future reference, and in case you need to order replacement parts. Parts for this fixture can be ordered from place of purchase. Be sure to use exact wording from illustration when ordering parts.

REPLACING GLASS

To replace glass, bend upper and lower tabs in corners of glass to be replaced. Install glass up through bottom of fixture. Bend tabs back as before.
