

Semi Custom Stretch Separate Seat

Instructions for SOFA, LOVESEAT or CHAIR

It's as easy as 7 Steps to a SURE FIT

1 LOCATE.....
the sewn-in "Center Front" and "Center Back" labels. Also look for the positioning stickers on the left and right arms.

2 DRAPE
First REMOVE seat cushions. Drape slipcover over furniture using positioning labels. It is important to start on one side setting the cover on one arm as shown. Then stretch around the back to the other arm lining up the back seams at back corners.

3 STRETCH
fabric behind to position elastic under all sides. Line up seams on seat area and tuck excess fabric into arm crevices.

4 SECURE UNDER
furniture keeping the seams lined up with arms as you pull down evenly to match contour. Stretch fabric as needed and watch it recover quickly!

5 INSERT CUSHION(S)
into zippered cover. You may need to overlap cushions when inserting them into a seat cover and then flatten them before you zipper the cover closed.

6 PLACE SEAT CUSHION(S)
with zippered closure facing the back. Push down front until flat. Smooth excess fabric and tuck creases on all three sides.

7 WHEN FINISHED
your slipcover will hug the furniture and stay tucked in! It's "sure" to make a positive impression!

Our stretch fabrics are designed to stretch and recover quickly.
