

Over many years PLATEAU has developed a reputation as one of the worlds premier manufacturers of audio/video furniture. Supported by manufacturing in state of the art factories around the world, our design team continues to do what is has done for nearly two decades - inspire and amaze consumers with innovative, technically superior, premium quality products.

Looking great is not enough for PLATEAU. Technical performance is not enough for PLATEAU. Only when we have achieved that magical fusion of great looks with exceptional performance does a PLATEAU product make it out of the design stage and into production.

PLATEAU customers derive genuine pleasure from their audio/video furniture, and this is why we have been engaging customers for longer than just about every other dedicated manufacturer of audio/video furniture in the world.

PLATEAU TLX SERIES

Audio/Video Stands

(Black Glass - Available Soon on Espresso Models)

TLX-2V 50 (Walnut)

TLX-2V 50 (Espresso) (Black Glass)

TLX-2V 50 (Walnut)

This Series features an open concept designed for easy access and aesthetic appeal. Features include wood parts offered in a Espresso (E) or Walnut (W) finish, high grade smooth edged safety glass, and built in wire management. Steel tubes are finished in a textured baked powder-coat finish. The unique and quality precision construction makes this Series the perfect compliment to any room. Designed for the current generation of video monitors, this unit stands out from the rest.
