Stainless Steel

Smooth Black

ENERGYSTAR® qualified models use at least 15% less energy than required by current federal standards. LG's Energy Star refrigerators allow consumers to save money, energy and protect the environment.

SIDE-BY-SIDES

SpacePlus™

Enjoy 11% more usable freezer space (1 cu.ft.) thanks to the self-contained ice maker located in the freezer door. Now you can store that additional gallon of ice cream or a few more favorite frozen pizzas! The ice storage bin is also removable for portability and easy cleaning.

SmoothTouch Digital Temperature Controls

Ensure precise temperature control in the refrigerator and freezer compartments. Located on the outside of the refrigerator, the touch-sensitive digital controls also allow you to use the IcePlus™ accelerated freezing function, monitor room temperature, and reset the water filter.

OptiFresh™ Crisper

Optimizes both humidity and temperature to extend the life of your leafy vegetables.

8 Electronic Temperature Sensors

Sensors detect heat from warm food and open doors, and automatically adjusts the interior temperature to within 1.5 degrees of the set temperature.

OptiBin™ Crisper

Optimizes humidity, extending life of most fruits and vegetables with the innovative Magic Crisper grid. The crisper lid lifts out of the way to better accommodate larger items.

Tall Bottle Dispenser

Can fit a glass or pitcher for conveniently dispensing ice and water.
