- Aroma Control

Stainless Steel

# COUNTER-TOP

## Space Saving Design

This attractive and compact unit combines a traditional microwave with a coffee maker that can brew up to six cups, adding style and convenience to your counter-top. Features such as an automatic timer and aroma control complete the package.

## Sensor Cook

Senses humidity inside the oven and automatically adjusts cook time and power appropriately. Once your food is thoroughly cooked, the microwave shuts itself off, reducing the risk of under or over-cooking.

## Round Cavity

LG's innovative curved cavity maximizes turntable size and increases your usable space. You can accommodate large, round serving dishes, and it also eliminates hard to reach corners and makes cleaning a breeze.

### LCRM1240

<b>CAPACITY</b>	
Oven Capacity	1.2 cu.ft.
<b>FEATURES</b>
