

DISHWASHERS

LDF7811

Capacity

- XL Tall Tub cleans up to 16 place settings at once
- Design-A-Rack™ System allows for maximum loading flexibility
 - Adjustable Upper Rack allows storage of 12" plates in the upper rack
 - Folding Tines & Removable Tines make instant room for larger items
 - 3-1 Cutlery Baskets can be snapped together or separated for placement in either the Upper or Lower Racks
 - Stemware Holder secures wine glasses, goblets and champagne flutes but also doubles as a double decker rack for storage of smaller cups

Performance and Conservation

- Premium LoDecibel™ Quiet Operation
- SenseClean™ Washing System
- 6 Wash Cycles with 3 Spray Arms
- Sanitary Cycle
- Half Load Cleaning
- Multi-Level Water Direction
- Detergent and Auto Rinse Dispenser
- Hybrid Drying System
- Slim Direct Drive Motor
- Water Heater
- Disposer/Self Cleaning Filter
- Delay Start up to 24 hours

Style and Design

- Fully Integrated Electronic Control Panel with hidden controls
- Visible Digital Status Display
- Premium Color Palette of Stainless Steel, White and Black with Matching Metal Handle
- Stainless Steel XL Tub
- Nylon Coated Racks and Tines with rounded tips

ENERGYSTAR® qualified models exceed the Department of Energy standards for energy consumption by at least 25%. LG's Energy Star dishwashers allow consumers to save money, energy and protect the environment.

DISHWASHERS

Fully Integrated Electronic Panel with Digital Status Display

Provides a beautiful exterior appearance while keeping you informed of the cycle status. Electronic controls ensure precise cleaning for safe dish care.

Premium LoDecibel™ Quiet System

Ensures you can talk on the phone or listen to the TV or the radio in your kitchen while the dishwasher is running. A combination of sound reducing material and the Direct Drive Motor ensures low noise.

SenseClean™ System

Measures turbidity in the water with an LED light during the first rinse. Then water and time is adjusted during the second cycle based on the need for more or less cleaning. This provides precise cleaning and water and energy efficiency.

Half Load Cleaning

Allows for cleaning in the upper or the lower racks for smaller loads. This feature conserves water and electricity.

Multi-Level Water Direction

Sprays water and detergent in five directions for even and thorough cleaning.

Hybrid Drying System

Uses a fan and condensation drying. The benefit is faster drying, reduced spotting and better energy efficiency.

Slim Direct Drive Motor

Delivers power directly to the tub from the motor without belts or pulleys. This innovative system enables a clean transfer of energy that is highly reliable, durable, quiet and compact.
