

T-Bar Clip

Model STBC

Description: Secures linear track to a dropped ceiling "T" bar. One clip needed every 2' of track.

Finishes: Black or White.

Mini-Monopoint Kit

Model MIK

Description: Consists of two 2-1/2" canopies (one punched for power cord) for use with suspension kits in place of standard full size canopies.

Finishes: Black, White, Brushed Nickel or Gold Plated.

Light Baffle

Model SLB

Description: 90° aluminum channel shields the track for a hidden light source under cabinets. Installs between the track and cabinet surface (track slides in from one end). Field cuttable and may be painted to match colors.

Finishes: White, or Gold Plated.

Dimensions: 4'L x 1 7/8"W x 1 7/8"D
8'L x 1 7/8"W x 1 7/8"D

Included: Instructions and mounting hardware included.

Jumper Set

Model SJS

Description: Used as a bridge in installations that prohibit a continuous run, or as a flexible angle connector. Wire is 12 gauge and 12" long. Can be shortened in the field.

Finishes: Black or White.

Listings: UL, CUL Listed.

Dimensions: 12"L x 3/4"W x 3/8"D
